Why Do I Graft? <i>Alton B. Parker</i>	21

THE COVER FLOWER

C. Japonica 'Hawaii'

'Hawaii' is a sport of 'C. M. Wilson', thus adding another member to the 'Elegans' family. The peony shaped, pale pink flowers are often over six inches across. The petals have a delicate lighter pink margin and are fimbriated, giving the flower an oriental look — much like the Chinese peony. The blooms have excellent lasting qualities, both on and off the bush. Growth habit and foliage are identical to the parent plant.
