THE COVER FLOWER

C. JAPONICA 'BOB HOPE'

Nuccio's Nurseries of Altadena, California has released several good red japonicas and 'Bob Hope' will surely join the group that has stood up. It is a luscious, brilliant dark red large to very large semi-double. The form may be an irregular semi-double as in the flower on the cover or it might be regular. The plant is also attractive with bushy upright growth and very dark, medium size green foliage. It blooms mid-season to late.

CAMELLIA NOMENCLATURE

NEW 1974 EDITION, ready December 1, 1973

1 to 11 copies..... \$3.00 per copy
