THE COVER FLOWER

C. RETICULATA SEEDLING 'SAN MARINO,' Courtesy Nuccio's Nurseries

'San Marino' is a C. reticulata chance seedling originating from seeds planted by Willard F. Goertz, of San Marino, California in 1968. The seedling bloomed in 1973 and was then propagated and released by Nuccio's Nurseries in 1977.

'San Marino' has a very dark red, large, semi-double bloom with heavy textured, fluted petals. The plant has a medium, spreading, upright growth and it blooms in mid-season.

CAMELLIA NOMENCLATURE
