CAMELLIAS FOR 1954

Altadena, Calif.

AERIAL VIEW OF NUCCIO'S NURSERIES

WELCOME VISITORS!

Most of our customers come to us through the United States mail, but we enjoy having visitors stop in to see us, and we cordially invite you to do so whenever you can. We are open daily **except Wednesday**, and business hours are from 8:00 to 5:00. During the period from June 1 through September 15 we are also closed on Sundays.

TERMS OF SALE

Please send your remittance with your order. California customers add 3% sales tax to the total. Prices in this catalog are subject to change without notice, and are all F.O.B. Altadena, California. Please specify the way you wish to have us make shipment (parcel post, express, motor freight, railroad freight or air freight). When no instructions are given we will ship via Railway Express. We make no crating charge on orders over \$20.00, but if your order amounts to less than \$20.00, please add \$1.00 for the first plant and 25c for each additional plant ordered in order to cover crating costs.

GUARANTEE

We guarantee all plants to be true to name, to be well grown, and properly packed for shipment. Shortages, damages or losses should be reported to the transportation agency immediately on arrival, and if you will notify us, we will give you all the assistance we can. At no time will we be responsible for more than the purchase price.

PLEASE READ BEFORE ORDERING

All of our Camellias are container grown (1-gal., 3-gal., 5-gal. and 6-gal.) and will be shipped in their containers. Handled this way Camellias can be shipped and planted every month of the year.

We propagate over 650 varieties of Camellias, many of which are too rare to be in the catalog list. Information desired on varieties not listed will be supplied on request.

We also have large, specimen plants of many varieties, and we will quote prices for these on request.

Notice to residents of the states of Alabama, Florida, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Virginia: All shipments of Camellias into these states will be bare-rooted, reballed in peat moss, burlapped and wrapped in waterproof paper. We are experienced in shipping bare-rooted Camellias and have found the above method so successful that we are giving the same guarantee we give our container grown Camellias. We have successfully shipped bare-rooted Camellias all months of the year, but for best results we advise shipment from mid-September through May.

SAVE MONEY

We offer generous discounts for quantity purchases.
Please refer to the table of discounts on page 13.

How to Grow Fine Camellias

Where and How to Plant

Even though Camellias can and are being successfully grown in full sun, the best exposure is filtered shade (trees, lath, etc.), morning, or afternoon sun. If planting a Camellia in full sun, it should be done in the winter months in order to allow the plant to become acclimated before summer heat.

Dig a hole at least twice as deep and twice as big around as the size of the container or ball of the plant. Add $\frac{1}{3}$ peat moss or leaf mold to soil taken from hole and mix thoroughly. If soil is heavy (clay or adobe) use at least 50% peat moss or leaf mold. Fill the hole with sufficient amount of mixed soil so that after firming, the top of the plant ball will set at least one inch above the surrounding area. NEVER PLANT TOO DEEP. After setting plant in hole, fill with the mixed soil and pack firmly. Make a basin around the plant and give it a thorough watering to settle soil. Place about one inch of peat moss in basin for mulch.

Watering

Do not allow plants to become dry, and more important, never keep soil soggy wet. Either condition can cause buds to drop or loss of plant. Always bear in mind that a Camellia likes to be kept reasonably moist, but also requires good drainage.

Fertilizing

Camellias should be fertilized during the summer growing months, starting as early as March and not later than August. Three feedings in this period are sufficient, i.e., April, June and August. Space feedings at least 30 days apart. Any of the better known acid fertilizers may be used, preferably cottonseed meal. For amount follow directions on package. NEVER OVER-FERTILIZE.

QUANTITY DISCOUNTS

It is easier for us to pack and ship several plants at one time than to make single plant shipments. We are glad to pass such savings in time and money on to you through quantity discount prices. Please refer to the schedule on page 13.

NEW CAMELLIAS

Not only do we maintain a steady breeding program of our own, which has resulted in the introduction of such varieties as KATHERINE NUCCIO, MASQUERADE, PRIMAVERA and WARRIOR, but we also carry on a very extensive trial of new varieties from other breeders. Out of the hundreds we have given critical examination, both new and very recent, we are adding 37 varieties to our catalog this year. This constant program assures you of the opportunity to acquire the newest and best camellias at Nuccio's.

SASANQUA CAMELLIAS

In the past few years the Sasanqua has at last been gaining the added popularity it rightfully deserves. Its hardiness, early and profusion of bloom (September to January), small, dark evergreen foliage make it a valuable addition to our landscape. Sasanquas thrive in full sun or a partially shaded area and may be used as hedges, ground covers, vines or specimens. Care and culture of the Sasanqua is identical to that of the Japonica.

RETICULATA CAMELLIAS

The following Yunnan Province Reticulata camellias are being offered by our nursery for the first time. Their beautiful blooms and open, graceful habit of growth make them distinct and unsurpassed in the world of camellias. We are offering these beautiful camellias in one size only—12 to 18 inch, grafted plants on 4 year understock at \$15.00 each. Limited quantity.

BUTTERFLY—6 inch rose-pink blossoms, with large, wavy petals. Slender, open growth.

CHANGS TEMPLE—Extremely large, brilliant pink, variegated, semi-double. Wide, dark green foliage.

CHRYSANTHEMUM PETAL—Full double, imbricated, pink, about 4 inches in diameter, with each petal fluted. Medium foliage.

CORNELIAN—Very large, deep rose, heavily marbled with white, semi-double, with wavy petals, and small petaloids in center.

CRIMSON ROBE—Very large, semi-double, carmine red. Petals are crepe textured, wavy and crinkled. Large foliage.

LION HEAD—Very large, semi-double, deep red, with each petal heavily variegated white.

MOUTANCHA—A 5 to 7 inch formal double with wavy petals; bright pink with white veins.

NOBLE PEARL—A 6 inch semi-double flower, with large, beautifully textured petals, deep red.

OSMANTHUS LEAF—Medium size, rose-form, double of unusual orchid-pink color. Small foliage.

PAGODA—Light red flowers, similar in form to Purple Gown, but more double, though small in diameter.

PROFESSOR TSAI—Large, rose-pink, semi-double with loose petal arrangement.

PURPLE GOWN—A 5 to 7 inch formal to peony form, deep purple-red with white variegation. Beautiful.

SHOT SILK—Brilliant pink, semi-double flowers, with loose, wavy petals informally arranged.

TALI QUEEN—Deep pink, lightly variegated with white; 6 inches or more in diameter. Large heavily textured petals.

WILLOW WAND—Large, orchid-pink, formal double blossoms opening to semi-double, with wavy petals.

SASANQUA CAMELLIAS

Our catalog this year reflects the very greatly increased interest in Sasanquas not only in the increased list of varieties but also in two new color plates, the Hana Jiman (above) and the phenomenal Jean May on the front cover.
