## NEW TOP PERFORMANCE CAMELLIAS

After more than 25 years' experience in the growing of camellias, we are proud to offer our friends and customers the following list of new, beautiful and outstanding seedlings. All passed the test of time—five full blooming seasons—which we feel confident is necessary to judge and eliminate all those that do not excel in beauty, style, distinctiveness, texture, growth habit, and, above all, performance.

Of the five to seven thousand seedlings that we bloom annually, 20 to 25 are selected for further testing, and from these only 3 or 4 survive our 5-year blooming test. With this program, we sincerely hope to introduce only the best in new varieties to the Camellia world—for 1962, the beautiful Disneyland and Alexis Smith.

**CARA MIA**—This outstanding beauty blooms from mid-November through February. A 5 inch semi-double pink, shading to blush pink in center petals. Beautiful golden stamens interspersed among the petals. Vigorous, upright. E-M. 12-18" \$7.50\*

**HAWAII**—This beautiful sport of C. M. Wilson, named for our 50th State, was developed by Hamilton and Clark Nurseries. The peony shaped, pale pink flowers are often over 6 inches across. The petals have a delicate lighter pink margin which are fimbriated, giving the flower an oriental look—much like the Chinese peony. The blooms have exceptional lasting qualities, both on and off the bush. Growth habit and foliage are identical to the parent plant. 12-18" 15.00\*; 24-30" heavy \$35.00\*

**MAROON AND GOLD**—This seedling of Kuro Tsubaki gives us a distinctive color—rich maroon-red in a small loose peony with beautiful golden stamens intermixed. Profuse bloomer with vigorous, upright growth. M-L. 12-18" \$5.00\*

## WELCOME VISITORS!

Most of our customers come to us through the United States mail, but we enjoy having visitors stop in to see us, and we cordially invite you to do so whenever you can. We are open daily **except Wednesday**, and business hours are from 8:00 to 5:00. During the period from May 1 through October 20 we are also closed on Sundays.

## TERMS OF SALE

Please send your remittance with your order. California customers add 4% sales tax to the total. Prices in this catalog are subject to change without notice, and are all F.O.B. Altadena, California. Please specify the way you wish to have us make shipment (express, motor freight, railroad freight or air freight). When no instructions are given we will ship via Railway Express. We make no crating charge on orders over \$20.00, but if your order amounts to less than \$20.00, please add \$1.00 for the first plant and 25c for each additional plant ordered in order to cover crating costs.

## NEW VARIETIES

Our breeding and testing program evaluates each year literally hundreds of new varieties of camellias, both of our own and other breeders' origin. To our already very large list of varieties we have added many more this year, dropping some which have become displaced by superior new strains.

## PLEASE READ BEFORE ORDERING

All of our Camellias are container grown (1-gal., 3-gal., 5-gal. and 6-gal.) and will be shipped in their containers. Handled this way Camellias can be shipped and planted every month of the year.

Notice to residents of the states of Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Texas. All shipments of Camellias into these states will be bare-rooted, reballled in peat moss, burlapped and wrapped in waterproof paper. We are experienced in shipping bare-rooted Camellias and have found the above method so successful that we are giving the same guarantee we give our container grown Camellias. We have successfully shipped bare-root Camellias all months of the year, but for best results we advise shipment from mid-October through April.

## GUARANTEE

We give no guarantee that our stock will live and grow; but we do guarantee our stock to be well rooted, well grown, true to name and properly packed for shipments.

Claims for shortages and errors must be made immediately upon receipt of shipment and we will gladly rectify our mistake, but in no instance will our liability be more than the purchase price.

Our responsibility ceases upon delivery to forwarding companies and any claims for damages en route are to be made upon them. Risks and costs of transportation belong to purchaser.

# How to Grow Fine Camellias

## Where and How to Plant

Even though Camellias can and are being successfully grown in full sun, the best exposure is filtered shade (trees, lath, etc.), morning, or afternoon sun. If planting a Camellia in full sun, it should be done in the winter months in order to allow the plant to become acclimated before summer heat.

Dig a hole at least twice as deep and twice as big around as the size of the container or ball of the plant. Add  $\frac{1}{3}$  peat moss or leaf mold to soil taken from hole and mix thoroughly. If soil is heavy (clay or adobe) use at least 50% peat moss or leaf mold. Fill the hole with sufficient amount of mixed soil so that after firming, the top of the plant ball will set at least one inch above the surrounding area. NEVER PLANT TOO DEEP. After setting plant in hole, fill with the mixed soil and pack firmly. Make a basin around the plant and give it a thorough watering to settle soil. Place about one inch of peat moss in basin for mulch.

## Watering

Do not allow plants to become dry, and more important, never keep soil soggy wet. Either condition can cause buds to drop or loss of plant. Always bear in mind that a Camellia likes to be kept reasonably moist, but also requires good drainage.

## Fertilizing

Camellias should be fertilized during the summer growing months, starting as early as March and not later than August. Three feedings in this period are sufficient, i.e., April, June and August. Space feedings at least 30 days apart. Any of the better known acid fertilizers may be used, preferably cottonseed meal. For amount follow directions on package. NEVER OVER-FERTILIZE.

**WE ARE PROUD** of our Shipping Department and we have countless complimentary letters from out-of-State purchasers of our Camellias. All stock is expertly and efficiently crated and packed in strong light-weight crates and tamper-proof cartons. Every order, regardless of size, is fitted into custom-built crates.

**IN THE PAST** ten years we have shipped Camellias throughout the United States and many foreign countries with the utmost success, and feel confident that with our experience our customers are receiving the finest quality plants as a result of the best packing and crating possible.

We are exerting every effort to produce the very best stock that can be grown, and in our 25 years of experience we believe we have never offered bigger and better values than we are this season. We secure our propagating wood from only the best type of plants, and by doing this we furnish you stock that is the best possible for you to get anywhere, regardless of price. If you will give us your order, we know you will be more than pleased with our quality plants.

#### **WELCOME, FRIENDS!**

The above map will help you to drive straight to our nursery when you're in town. We very much like to meet our friends from all over camellia-land, and we'll be most happy and proud to show you our nursery. Business hours are from 8:00 to 5:00 every day except **Wednesday**. From **May 1 to October 20** we are also closed on Sundays.

## **SPECIAL BONUS OFFER**

When our customers send us a nice order we like to show our appreciation by shipping extra camellias. But so many times we are uncertain what to send because the variety we select may be one already a part of your collection. So we are making this special bonus offer in order to give you an opportunity to select the extra plants yourself. There are no restrictions on varieties—you may choose any kind in this catalog according to the following schedule:

If your order amounts to **\$20.00** or more, select any **\$2.50** camellia free of additional charge.

If your order amounts to **\$40.00** or more, select any camellias totaling **\$5.00** in value.

If your order amounts to **\$60.00** or more, select any camellias totaling **\$7.50** in value.

If your order amounts to **\$80.00** or more, select any camellias totaling **\$10.00** in value.

**Larger orders earn bonus plants according to the same ratio**

Growing Camellias is a hobby which provides an ever increasing source of interest. There are many varieties and species to be had and many beautiful new hybrids being produced. If you want a hobby that grows more interesting, beautiful and valuable every day, then grow Camellias. Camellia varieties and their culture vary so greatly in different sections of the country, that information you would receive through membership of a Camellia Society would be of utmost value. For further information write to the American Camellia Society, Box 2398, University Station, Gainesville, Florida, and to the Southern California Camellia Society, 2465 Sherwood Road, San Marino 9, California.

## CAMELLIA SPECIES

In recent years a great deal of interest in *Camellia* species has developed not only for hybridizing purposes, but for their unusual and interesting growth habits, foliage and flowers. We offer, for the first time, a few of the better rare species for your selection.

**C. FRATERNA**—Small white, single, blooming in clusters on graceful, arching branches. Small foliage with pendulous growth habit. Excellent for hanging baskets or Bonsai. M. 12-18" \$7.50\*

**C. GRANTHAMIANA**—This newly discovered species will add tremendous interest to hybridizers as well as *Camellia* enthusiasts. Its unusual foliage, large and heavily ribbed, 4½ to 5" creamy white, single blossom, with cluster of golden stamens, will make this a must in every garden. E-M. 12-18" \$7.50\*

**C. IRRAWADIENSIS**—One of the most vigorous of the species. Very large foliage with small creamy white single blossoms. 12-18" \$7.50\*

**C. OLEIFERA**—Medium, single white with cluster of golden stamens. Vigorous, upright, open growth. M-L. 12-18" \$5.00

**C. ROSAEFLORA**—A bushy, upright, graceful shrub with small foliage, producing an abundance of very small, single rose-pink blooms. 12-18" \$7.50\*

**C. SALICIFOLIA**—A low, brushy shrub with very long, narrow foliage. Small, white, single blossoms. E-M. 12-18" \$7.50\*

**C. SALUENENSIS**—A very lovely pink and white, medium size, single that blooms profusely, on long, upright, vigorous growth. Excellent for landscape and hybridizing. M-L. 12-18" \$5.00\*

# HARVEY SHORT'S CAMELLIAS OF TOMORROW

Again it is our pleasure to list four new Harvey F. Short's "Camellias of Tomorrow." This interesting and select group marks another chapter in new form and color. Emphasis on the newest in sweet pea pink comes with one of the most charming of all flowers, Ballet Dancer. For eye appeal, the beautiful clear peach-pink of Magic Moments, and exciting variegated Extravaganza, together with Wonderland, a brilliant rose-red of outstanding size and texture, adds much to the already popular Harvey F. Short varieties.
