## THE COVER FLOWER

### C. JAPONICA 'PINK FROST'

'Pink Frost' is a C. japonica sport of 'Pink Pagoda'. It was discovered by Mr. S. E. Foster of El Cajon, California in 1970 and it was propagated by Nuccio's Nurseries and released in 1975. The flower is a medium to large, formal double. The petals are silvery pink with a white border. The plant has a vigorous, upright, compact growth and it blooms in mid-season.
