THE COVER FLOWER

C. RETICULATA, 'THREE DREAMS'

Three Dreams is a *C. reticulata* seedling of 'Buddha'. It was developed and propagated by Monique Peer at Park Hill Gardens in Los Angeles, California and registered in 1970. The flower is a large to very large semi-double with wavy, crinkled petals. The color is deep rose pink. The plant has a vigorous upright growth and it blooms in mid-season.
