Thoughts From The Editor	2

THE COVER FLOWER

C. JAPONICA 'FIMBRIATA'

'Fimbriata' is a *C. japonica* sport of 'Alba Plena'. It is a formal double with fringed white petals. It was imported to England in 1816 and subsequently to the United States. The color plate is a copy of the first color plate of a camellia ever printed in the United States and was included in a publication entitled "The American Flower Garden Directory" by Hibbert and Buist—1832.

CAMELLIA NOMENCLATURE

1976 EDITION
