THE COVER FLOWER

C. JAPONICA SEEDLING 'NUCCIO'S JEWEL,' Courtesy Nuccio's Nurseries

'Nuccio's Jewel' is a C. japonica seedling discovered in the seedling propagation yard at Nuccio's Nurseries in 1974. The seedling was set to one side and marked for observation. After grafting and cutting trials it was marked for future propagation. It is a white washed and shaded orchid pink bloom with a medium, full peony form. The plant has a vigorous, compact, upright growth and it blooms in mid-season. This Cultivar was introduced in September 1978.

CAMELLIA NOMENCLATURE

1978 EDITION

1 to 11 copies	\$4.00 per copy
12 and more copies	\$3.25 per copy
