THE COVER FLOWER

C. RETICULATA—‘DR. CLIFFORD PARKS’

Courtesy The New Zealand Camellia Society—Photo by Yvonne Cave

‘Dr. Clifford Parks’ is a cross of Reticulata ‘Crimson Robe’ x Japonica ‘Kramer’s Supreme.’ The cross was made in the late 1960’s by Dr. Clifford Parks when he was located at the Los Angeles State and County Arboretum under a grant from the Southern California Camellia Research Advisory Committee. The seedling was sent to Dave Feathers where it was propagated, named and introduced in 1971. The flower is red with an orange cast, very large, semi-double, loose peony to full peony form. The plant has a vigorous growth and it blooms in mid-season. This color separation was obtained from Dave Henderson, courtesy of the New Zealand Camellia Society.

CAMELLIA NOMENCLATURE

1978 EDITION

1 to 11 copies	\$4.00 per copy
12 and more copies	\$3.25 per copy
