The Not So Perfect Pink Perfection, <i>Carl Quanstrom</i>	8

THE COVER FLOWER

'Rose Hollard' is a non-retic hybrid cultivar. The *C. saluenensis* x *C. japonica* cross was originated by the late B.J. Rayner of Stratford New Zealand. The flower is a rose pink, large rose form double. The plant has a medium, open growth and it blooms in mid-season. We obtained the color separation courtesy of the New Zealand Camellia Society. The photo was made by Yvonne Cave, Fellow of the Photo Society of New Zealand.

PUBLISHED BY THE SOUTHERN CALIFORNIA SOCIETY, INC.

Copyright 1980

Six issues per volume—September, November, January, March, May and July.

All manuscript for publication and correspondence should be sent directly to the Editor. Republication permitted, if due credit is given the *Camellia Review* and the author.
